

The CUBE

The front-loading waste container:
quick and efficient

 MADE IN CANADA

Technical specification

The use of plastic confers distinct advantages to Ecoloxia products:

It simplifies the maintenance of facilities and is resistant to the freezing and thawing cycles that characterize the North American climate.

It does not rust, does not crack, is resistant to shock and friction, unlike concrete and steel.

It retains its beautiful appearance over time.

Lightweight, it is easy to handle and install.

Type	▶ Above ground
Capacity	▶ 3m ³ / 4y ³
Measurements	▶ 2032 x 1117 x 2032 mm 80 x 44 x 80 in
